|---|---|---|---|
| Mileage | 2,800 miles | Engine Capacity | 3596cc |
| Body Style | Coupe | Fuel | Petrol |
| Transmission | Manual | Chassis No. | 776401 |

This car is one of only 19 UK right-hand drive examples ever produced. Factory fitted options on this GT2 include a lightweight battery, PCM navigation system, ASK sound package, universal multimedia interface, 6-point passenger seat belt, Guards Red seat belts, carbon front wing, clear glass look tail lights, floor mats, carbon door entry guards with logo and windscreen with top tint. Astonishing performance figures, including 612 BHP and 700 Nm (516 lb/ft) of torque, and a weight 70 kg (150 lb) less than the standard GT2, along with different turbochargers, new intercoolers, new pistons and a new engine management system, to run 1.6 bar of boost over the standard carâ€™s 1.4 bar. When released it was the fastest and most powerful road-going sports car ever built in the history of Porsche, and with an incredible a power-to-weight ratio of just 4.9 lbs (2.21 kg) per horsepower, it featured by far the best power/weight ratio in its class. This is a car that will be appreciated and respected by Porsche connoisseurs forever.
