An original Rudge wheel example finished in its original colour of light Blue (DB 334). The car has been the subject of a total body-off, nut-and-bolt restoration by world renowned specialists and comes complete with fitted luggage, handbooks, factory data card, workshop manual, restoration album and model literature. Examples as finely restored as this particular car are very hard to find, and the fact that it wears its super desirable original colour and is an original Rudge wheels car only makes it even more special!
