TOM HARTLEY JNR

1973 PORSCHE 911 2.4SCoupe

Silver Metallic with Black with Houndstooth

£SOLD

Mileage	N/A miles	Engine Capacity	2341cc
Body Style	Coupe	Fuel	Petrol
Transmission	Manual	Chassis No.	300921

A beautifully restored, matching number example that is finished in its original colour combination of Silver Metallic over a Black interior. Delivered new in March 1973 with a host of optional extras including a heated rear screen and an electric sliding roof.

Totally restored by model specialists circa 10 years ago, at which time the car was taken back to a bare shell and finished to an exceptionally high level.

We previously sold this car to a very good client back in 2013, a noted Porsche collector who used it very little but maintained it without regard to cost. Complete with handbooks and a pouch plus its spare keys and a tool roll.
