£SOLD

Mileage	38,967 miles	Engine Capacity	4390cc
Body Style	Coupe	Fuel	Petrol
Transmission	Manual	Chassis No.	12139

A 365 GTC is regarded as being one of the best all-round Ferraris ever built. It's nimble, quick and exclusive, representing the epitome of sophistication. Only 150 examples were ever produced and they are one of the finest driving 1960s GT Ferraris.

Chassis #12139 was supplied new in February 1969 via official Ferrari dealer Renato Nocentini's Garage La Rotonda in Prato near Florence. The original colour was the very attractive Bleu Scuro over Pelle Beige Connolly leather interior, the same colours it's presented in today. It was also ordered new with the factory optional extra of air conditioning which was not commonly seen on cars from this period.

It was subjected to a major refurbishment that was completed in 2014 and due to very little use since, it still presents exceptionally well throughout. In recent years it has also been awarded its full Ferrari â€˜Red Bookâ€™ Classiche certification which confirms it still retains its original chassis, body, engine, gearbox.
