A very original car that was delivered to its first owner in September 1993 through Danish official Ferrari Importer Damgaard-Nielsen Automobilier A.S.

In July 1998 and having only covered 291km test miles, it was acquired by its second and most recent owner and remained in his ownership until recently.

This particular car was also specified new with the optional extra of adjustable suspension and is the latest production example we have ever handled or seen.

It's fresh from a major service by marque and model experts Autofficina Bonini S.r.l who also replaced the fuel cells, fuel pipes and tyres.
