Transmission	Semi-automatic	Chassis No.	292710

It is believed that the 812 GTS will be the end of an era for the front mounted, naturally aspirated 6.5-litre V12 Ferrari,Â free of turbocharging or hybrid technology, asÂ orders for this iconic model have now ceased. It has been some 50 years since Ferrari produced a front mounted V12 Spider exclusive of the special series editions, the last being the legendary 365 GTS/4 'Daytona'.

The 812 GTS sets new levels in performance, producing 789 bhp, 800 cv at maximum power with 718 Nm torque which made it the most powerful production Spider of all time at its launch. With a maximum speed of 211 mph (340 km/h) and a 0-62 miles in 3.0 seconds, it set a new standard in performanceÂ with exhilarating speed, power agility and practicality.

This example is a 1 owner, UK supplied car with only 1,163 miles from new. It benefits from a huge list of factory optional

extras and features that include; Carbon fibre dashboard accents, Carbon fibre drivers zone and LEDS, Carbon fibre central bridge, Carbon fibre under door cover, full electric 8-way seats, square pattern stitching to seats in Giallo, Cavallino stitching to headrests, Alcantara inner seat trim, Alcantara door panels, Alcantara central tunnel, Alcantara lower dashboard trim, Giallo interior stitching throughout, passenger display, high power HiFi infotainment system, front and rear parking sensors, surround view, Apple CarPlay, Giallo rev counter, Giallo centre console bridge buttons, front and rear suspension lift, LED adaptive front lighting system, cruise control, tyre pressure and temperature monitoring sensor, rain and light sensors, electrochromic heated door mirrors with automatic closure, electrochromic interior rear view mirror, Carbon fibre front bumper accents, Carbon fibre front spoiler, Carbon fibre rear bumper flanks, Carbon fibre rear diffuser, Carbon fibre exterior sills, Carbon fibre quarter glass, dual round LED rear tail lamps, Carbon fibre wheel caps, matt black forged racing alloy wheels, air brushed Scuderia shields, Giallo brake callipers, nero ceramic exhaust pipes and an anti-theft tracking system.

It is presented in 'as new' condition throughout and offered with the remainder of its Ferrari 7-year service plan until March 2030 plus a manufacturer's new car warranty until March 2027. It also comes complete with its original books including its service/warranty supplement, pouch, spare key, Ferrari car cover, Ferrari battery conditioner and a dedicated history file that includes a copy of its original invoice.
