£89,500

Mileage	16,335 miles	Engine Capacity	5935cc
Body Style	Coupe	Fuel	Petrol
Transmission	Semi-automatic	Chassis No.	501507

The standard Vanquish was launched in 2001 becoming one of the worldâ€™s most desirable cars following on from its famed appearance in the James Bond film ‘Die Another Day’ driven by the very 007 himself.

Launched at the Paris Motor show in 2004 the Vanquish S took the model to the next level, boasting an array of anticipated performance upgrades. Its all-alloy V12 engine was enhanced with new cylinder heads, revised engine mapping and updated fuel injectors that increased the standard Vanquishâ€™s power from 460 bhp to a very impressive 520 bhp. Revised gearing accelerated the Vanquish S to reach a top speed of 200 mph and a 0-60 mph in 4.8 seconds, making it one of the fastest Aston Martinâ€™s manufactured at Newport Pagnell at that time.

Discreet changes to â€˜Sâ€™ included a bigger, revised grille, front splitter and a raised rear spoiler built into the boot lid to keep the car stable at high speed. Its interior presented with beautiful hand stitched leather, the dashboard and many of the

smaller interior elements were trimmed in hide adding to the bespoke feel of the already impressive cockpit.

This stunning single owner, very low mileage example was completed with the following options and features that include; two + zero seating configuration, heated front seats, heated front screen, console storage box, Motorola fitted telephone with integral system, rear parking sensors, brake callipers in grey and a security tracker.

Our example has the added benefit of a complete and documented official Aston Martin service history from new as listed below;
