

TOM HARTLEY JNR

1955 LANCIA D50A £SOLD

Mileage	N/A miles	Engine Capacity	2488cc
Body Style	Formula-1 Car	Fuel	Petrol
Transmission	Manual	Chassis No.	0002R

Included in the sale of the Ecclestone Grand Prix Collection.

One of only five examples produced using original factory drawings and fitted with an original D50 engine and transaxle.

Chassis and body constructed by model expert Guido Rosani and the drivetrain installed by Jim Stokes Workshops.

The recreation of an icon from the glory days of racing that had been consigned to the history books.

Completed for Bernie Ecclestone and the most period correct of all the examples produced and it had remained within the collection ever since.

Eligible for some of the world's very best motoring events, including the Goodwood Revival.
