White with Black Race-Tex

£SOLD

Mileage	10,761 miles	Engine Capacity	2981cc
Body Style	Coupe	Fuel	Petrol
Transmission	PDK	Chassis No.	222070

A true celebration of Porscheâ€™s motorsport heritage, the 911 Dakar pays tribute to the marqueâ€™s historic victory in the 1984 Paris-Dakar Rally. Limited to just 2,500 examples produced worldwide, it blends the performance of a 911 Carrera 4 GTS with genuine off-road capability, creating one of the most distinctive and collectible 911 models of recent years.

Powered by a 3.0 litre twin-turbo flat-six, the Dakar produces 473 bhp and 570 Nm of torque, coupled to a quick-shifting eight-speed PDK dual-clutch automatic gearbox, launching from 0â€“62 mph in just 3.4 seconds. Top speed reaches 149 mph, a figure determined by the bespoke Pirelli Scorpion All Terrain Plus tyres, engineered for durability, grip, and versatility across all surfaces.

Unique to the Dakar is a suspension lift system that raises ride height by up to 80 mm over a standard Carrera, delivering SUV-rivalling ground clearance while preserving Porscheâ€™s signature handling precision, usable at speeds of up to 105 mph.

Complementing this are two Dakar-exclusive driving modes, Rallye and Offroad, designed to optimise performance on loose and challenging terrain, supported by Rallye Launch Control for maximum traction. In addition, the model retains Normal, Sport, and Sport Plus modes for everyday road use, ensuring the Dakar is as versatile on tarmac as it is off-road.

It also features not only the Porsche Active Suspension Management (PASM) as standard, rear-axle steering, Porsche Dynamic Chassis Control (PDCC), and PTV Plus in conjunction with an electronically controlled rear differential lock with fully variable torque distribution.This is not only a 911 capable of tackling gravel, sand, and snow with ease, but also a future classic, a limited production Porsche that combines rarity, performance, and heritage in equal measure.

This particular Dakar is car number 1243, it is a UK supplied example and was specified with a host of factory options and features that include: Race-Tex interior package including extensive interior items in leather, adaptive sport seats plus with 18-way electric and memory package, heated seats, sports seats plus with backrests in leather with matt carbon inlays, heated GT sports steering wheel with the steering wheel panel in matt carbon, Burmester High-End surround sound system, sport chrono stopwatch with white instrument dial, rev counter in white, lightweight and noise insulated glass including privacy glass, fire extinguisher, ioniser, Porsche roof rack basket with integrated LED lights, exterior package painted in high-gloss black, side window trims in high-gloss black, exterior mirror upper trims in carbon, wheels painted in white, high gloss black brake callipers, sports exhaust system tailpipes in black and full body PPF.

Presented in exceptional condition throughout and offered complete with its Porsche leather pouch which includes the ever-important original guarantee and maintenance book, water canister, roof rail carrier bag, two pairs of Porsche gloves, one set of recovery boards and mounts, roof ratchet straps, tyre sealant with electric air compressor, warning triangle, car cover and a dedicated history file.
