Black with Black leather / Race-Tex interior
£535,000

Mileage	3,558 miles	Engine Capacity	3800cc
Body Style	Coupe	Fuel	Petrol
Transmission	PDK	Chassis No.	180224

The Porsche 991 GT2 RS represents the absolute pinnacle of the 991 generation and is widely regarded as one of the greatest modern era 911s ever produced. Developed with direct influence from Porsche Motorsport, the GT2 RS combines brutal turbocharged performance with genuine Rennsport pedigree, delivering an intensity and level of driver engagement few modern supercars can rival.

Powered by a 3.8-litre twin turbocharged flat-six producing 700 horsepower, the GT2 RS is capable of reaching 0-60mph in just 2.7 seconds and a top speed of 211mph. With rear wheel drive, extensive lightweight construction and Porsche's lightning fast 7-speed PDK transmission, it offers a driving experience that is both visceral and immensely capable, combining savage performance with extraordinary chassis precision. Upon its release, the GT2 RS set new benchmarks for road legal performance cars and famously recorded a Nürburgring lap time of 6 minutes 47.3 seconds, making it the fastest production car around the circuit at the time and further cementing its position amongst the all time great Porsche models.

TOM HARTLEY JNR
