

2015 PORSCHE 911 GT3 RS (991)
White with Black leather and Race-Tex Inserts
£149,500

Mileage	7,515 miles	Engine Capacity	3996cc
Body Style	Coupe	Fuel	Petrol
Transmission	PDK	Chassis No.	188176

The Porsche 911 GT3 RS has long represented the pinnacle of naturally aspirated road going performance, and the 991.1 generation occupies a particularly important place in the model's evolution. Introduced in 2015, it was the first GT3 RS to be based on the 991 platform and the first to adopt Porsche's 4.0-litre naturally aspirated flat-six, producing 500 bhp. Combined exclusively with Porsche's lightning-fast seven-speed PDK transmission, the result was a car capable of delivering race-car precision with everyday usability.

Developed by Porsche's GT department, the 991.1 GT3 RS features an extensive weight saving programme, magnesium roof, lightweight body panels, active rear-wheel steering and some of the most advanced aerodynamics ever fitted to a naturally aspirated 911. Capable of 0-62 mph in just 3.3 seconds, it remains one of the most engaging and rewarding modern 911s to drive.

TOM HARTLEY JNR
