Artic Grey with Black Leather
£139,500

Mileage	11,515 miles	Engine Capacity	3745cc
Body Style	Coupe	Fuel	Petrol
Transmission	PDK	Chassis No.	253738

A Porsche 911 Turbo has long been regarded as the definitive everyday supercar, combining breathtaking performance with exceptional refinement and usability. This 2023 Porsche 911 Turbo Coupé continues that tradition, offering the perfect balance between exhilarating pace, long-distance comfort and timeless design. Powered by Porsche's formidable 3.7-litre twin-turbocharged flat-six engine producing 572 bhp and 750 Nm of torque, delivered through the acclaimed 8-speed PDK transmission and intelligent all-wheel drive system, the Turbo accelerates from 0-62 mph in just 2.8 seconds and continues to a remarkable 199 mph.

The driver focused interior perfectly blends sporting intent with modern luxury. Premium materials, supportive electrically adjustable sports seats and Porsche's intuitive infotainment system create an environment equally suited to spirited driving or everyday use. Despite its supercar performance, the 911 Turbo remains one of the most practical high-performance cars available, with rear seating, front luggage compartment and outstanding long distance refinement.

TOM HARTLEY JNR
