TOM HARTLEY JNR

2001 MINI Cooper Sport 500

Solar Red with Black & Silver Leather

Mileage	18 miles	Engine Capacity	1275cc
Body Style	Hatchback	Fuel	Petrol
Transmission	Manual	Chassis No.	188516

The Cooper Sport 500s were the final edition of the iconic Mini, built to celebrate 41 years of production before the introduction of the 'BMW' Minis. Only 500 examples were ever produced and all built to a very high and instantly recognisable specification, Silver roof and stripes, full bank of Rallye-Style fog and spot lamps, wide wheel arch extensions, 13″ Minilite-style alloy wheels, black and titanium leather, alloy fittings, engine turned alloy dash, chrome bezal gauges, commemorative plaque inside the glovebox, still complete with the Mini commemorative memorabilia delivered to all of the first owners of these special cars.

This has to be the very best example anywhere in the world, always stored correctly and accompanied by its full accessories!
