This is one of the greatest Ferraris of all times and this specific 275 GTB was built as a long nose alloy body by Scaglietti and was delivered to the original owner in January 1966 in Rome, Italy. Later that year it had the engine upgraded to six carburettors. In 1992 it was the winner of the Club Ferrari France Trophy for best restoration and in 2006 it was factory certified by Ferrari Classiche. This is a truly unique opportunity to purchase one of the best 275s which is both mechanically and cosmetically pristine.
