This late production car was originally finished in Ivory with a Red interior and delivered new with a factory hardtop and disc brakes. It has been the subject of a total body-off, nut-and-bolt restoration and was converted to the more desirable European headlamps. The Roadster comes complete with matching fitted luggage, handbooks, workshop manual, spare parts book, restoration album and extra factory model literature. The registration number is not included but may be available subject to separate negotiation.
