One of only 75 GTs ever produced and fresh from a complete nut & bolt restoration by marque experts. A car that enjoyed a huge amount of period race history and achieved much success including 1st place finishes and countless lap records at some of the UK's finest circuits. Continuing to race until recent years and remarkably still today retains its original engine. Restored back to its original stunning colour combination and most recently displayed at the 2018 Concours of Elegance held at Hampton Court Palace.
