The Super Sport is the final chapter in the extraordinary car that is the Veyron, The result is a car with a uniquely high performance of 1200 bhp offering experienced drivers a whole new dimension of excitement, with a maximum torque of 1,500 Newton metres and a limited top speed of 415 km/h (to protect the tyres). Four enlarged turbochargers and bigger intercoolers have been used to boost the power of the 16-cylinder engine, and the chassis has been extensively redesigned to maintain safety at extreme speed. Only 30 of these cars are to be made in total and all sold out immediately, The car we are offering here though is not just a normal Super Sport (if there is such a thing) but a very special spec known as 'Sang Noir', it was built by the factory to satisfy a very special customers needs as he didn't like the look of the 'World record Edition' but wanted some of its features, Subsequently it is the only Super Sport of the non World Record cars that bears the same front 'Bugatti badge' as a gesture from the factory. It comes with the following options, transparent rear lights, door sill plates in

Black Matt Lambo painted with 'Sang Noir' in Tangerine, Tangerine stitching on Black leather & Black stitching on Tangerine leather, centre console 'Sang Noir' logo in Black, Black anodised EB logo on steering wheel, Tangerine steering wheel ring, EB logo and outer ring between the seats in Black Matt, comfort seats (plus additional sports seats as spares), diamond cut SuperSport alloys also finished in Black, Black brake callipers, roof rails in polished aluminium, reversing camera. Upon completion the car was displayed at the 2011 Geneva Motor show. It is the only Super Sport available for sale.
