White with Blue Leather
£144,950

Mileage	52,922 miles	Engine Capacity	1897cc
Body Style	Convertible	Fuel	Petrol
Transmission	Manual	Chassis No.	

Original Engine, Original Colours, Fitted Luggage, This car was subject to a seven-year restoration which included the rebuild of its original engine. The suspension and brakes were refurbished, a new exhaust, clutch, tyres and wiring loom all installed. The body was resprayed, the interior re-upholstered plus new carpets and a new blue hood fitted. There are many invoices in the history file confirming such. However, since coming into our ownership we decided to return the car back to its factory delivered colour combination and ensure the car is presented in what we consider "totally restored" condition. The stripping of all the mechanical components was entrusted to marque specialists Roger Edwards (Motors) who were recommended by the Mercedes-Benz Owners Club as being the leading experts of 190SL's in the UK. The bodywork including gaps, profiles and paintwork has been completed by renowned specialists XK Engineering. As would be expected the re-assemble was carried out back at Roger Edwards who we requested to fully inspect all the works undertaken and give their final "seal of approval" before the car was presented for sale.
