A fantastic early production 355 GTS, finished in the very attractive colour of Blu Swaters of which we believe only 2 right-hand drive examples were ever produced. Maintained without regard to cost throughout its life, with services in 1996, 1997, 1998, 1999, 2002, 2005, 2006, 2008, 2009, 2012, 2013, 2014, 2015, 2016 and 2017. Being an early production car, it's in the purest form of a 355 which is of course the most collectable, benefiting from the Bosch Motronic M2.7 engine control unit. Presented in fantastic condition both mechanically and cosmetically and still complete with its original handbooks including the service/warranty supplement and a very well documented history file which contains many of the old service and maintenance invoices.
