

TOM HARTLEY JNR

## 1960 ASTON MARTIN DB4 GT Sea Green with Off White

**SOLD**

|              |              |                 |        |
|--------------|--------------|-----------------|--------|
| Mileage      | 72,178 miles | Engine Capacity | 3670cc |
| Body Style   | Coupe        | Fuel            | Petrol |
| Transmission | Manual       | Chassis No.     | 0104/L |

1 of only 28 left-hand drive examples ever produced and one of the purest in existence. A very early GT that still retains some of the idiosyncrasies of those early cars, such as; the four under-bumper air intakes, different headlamp cover mountings and a magnesium handle for securing the spare wheel and tyre instead of the later belt and buckle. Not just total matching numbers, it also benefits from only 4 owners from new and known history throughout. Finished in its original colour combination, the car was totally restored around 20 years ago yet a class award winner in 2016, a testament to the quality of its restoration. Complete with an original owners manual including the GT supplement, and original Jack and reproduction tool roll. Simply one of the very best GT's in existence.
