|---|---|---|---|
| Mileage | 4,121 miles | Engine Capacity | 2418cc |
| Body Style | Coupe | Fuel | Petrol |
| Transmission | Manual | Chassis No. | 001527 |

The Lancia Stratos dominated the world of rallying in the 1970s winning numerous World Rally Championships. Only 492 were ever built and chassis 001527 is one of the most original road-going examples in existence with only 6,632km from new.

Finished in its original colour combination of Rosso Arancio over a Havana Alcantara interior and has never been taken apart or restored. The car has been meticulously cared for throughout its life and benefits from only 3 owners from new including almost 30 years in the same ownership. It comes complete with books, a tool kit, jack and a very well documented history file which contains original factory delivery documentation.

It represents a fantastic opportunity to purchase one of the finest road-going examples of Lanciaâ€™s iconic rally car.
