Chassis no.124808 that we present for sale is a UK supplied, right-hand drive example that was sold new via AFN Ltd on the 6th November 1963.

As is quite common with these cars, little is known of its early life but it was purchased in May 2010 and returned to the UK by the then owner who commenced a detailed and thorough nut and bolt restoration and upgraded it to an "Outlaw"™ specification.

The bodywork was entrusted to a renowned specialist and the paint was finished in the period correct Ruby Red. The restoration of the engine, gearbox and running gear was entrusted to world renowned marque expert Andy Prill. The engine was upgraded to a 1720cc twin spark specification with a full flow oil system, producing circa 120bhp. Finally, GT Speedster style seats with 4-point Sabelt racing seat belts were fitted and the carpeting finished in the correct box weave material.
