£SOLD

Mileage	143 miles	Engine Capacity	3990cc
Body Style	Coupe	Fuel	Hybrid
Transmission	Semi-automatic	Chassis No.	265105

The SF90 Stradale represents Ferrari's new series-production supercar.

Its launch is not only in celebration of Scuderia Ferrari 'SF' and '90' years of their foundation, it also signifies everything that has been achieved by them to date in terms of performance. A strong link has always existed between Ferrari's track and road cars and it represents the capturing of the most advanced technologies developed in Maranello, a perfect demonstration of Ferrari's knowledge and skills in the competition field transferred to their production cars.

In terms of performance the car is breathtaking producing an incredible 986bhp using its 4 litre V8 twin turbo engine and 3 electric motors. It is the most powerful Ferrari road car to date with a performance of 0 to 62mph in 2.5 seconds and a top speed of 211mph! The car delivers its performance via 4-wheel drive, downforce at the front end generated by the cars Vortex aerodynamic design and the rear wing design known as the Gurney shut-off.
