TOM HARTLEY JNR

2017 BUGATTI Chiron

Blue Exposed Carbon Fibre with French Racing Blue with Beige leather

£SOLD

Mileage	1,315 miles	Engine Capacity	7993cc
Body Style	Coupe	Fuel	Petrol
Transmission	Semi-automatic	Chassis No.	795051

A VAT Qualifying, UK supplied example that's been in single ownership from new.

A fantastic spec car that was ordered new with a host of factory optional extras including the very expensive option of blue exposed carbon fibre body that's complimented with French Racing Blue, in addition the car has Atlantic Blue CaractÃ¨re Â wheels with French Racing Blue brake callipers, Blue carbon with French Racing Blue wing mirrors, grey carbon cowl cover, Terre d'Or leather with carbon fibre interior trim, quilted sport seats and colour coded seat belts.

The car benefits from impeccable service history from new with all services solely carried out by Bugatti London, as detailed below:

2017 May – PDI at Bugatti London

Tom Hartley Jnr, Tadmarton Heath Road, Hook Norton, Oxfordshire OX15 5DD
Tel: +44 (0)1608 532500 **Email:** info@tomhartleyjnr.com www.tomhartleyjnr.com

2018 August – Service at Bugatti London – 1,051 miles

2019 July – Service at Bugatti London – 1,254 miles

2020 August – Service at Bugatti London – 1,255 miles

2021 September – Service at Bugatti London – 1,277 miles

Presented in 'as new' condition throughout and complete with all of its factory accessories including the dedicated metal presentation box, speed key, spare key, a USB memory stick containing production images and original specification details, original owner's handbooks, car cover and trickle charger.

This beautifully spec'd and impeccably maintained Chiron is distinguishable from new in only one respect, price, representing a fantastic opportunity to purchase the car, particularly for buyers outside the UK due to its VAT qualifying status.

With an 8-litre, 16-cylinder quad-turbocharged engine that produces 1,500 hp, 1,600 Nm of torque and a top speed that is electronically limited to an incredible 261 MPH, there's no dispute that a Chiron is 'The *Concorde* of automobiles'!
