1 of only 27 UK right-hand drive 275 GTB/4s ever produced.

This full matching number example has covered just over 30,000 miles from new and benefits from a fantastic restoration in which so much care and detail was taken that the original leather was removed from the seats, new foam installed and the old leather then reused.

Upon careful inspection of the car today, all other original components are still in place which includes but not limited to its factory tags, headlamps and glass windows. In addition the car still retains its original tool roll, handbooks, leather pouch and incredibly its original warranty card.

A very famous car that was used in period by the Castrol oil company in campaigns for their Castrol GTX product.
