

TOM HARTLEY JNR

2017 BUGATTI Chiron

Black and Bugatti Light Blue with Beluga Black Bugatti Light Blue
£SOLD

Mileage	2,285 miles	Engine Capacity	7993cc
Body Style	Coupe	Fuel	Petrol
Transmission	Semi-automatic	Chassis No.	795060

A European supplied, stunning spec example.

It is evident the first owner put much thought into the original configuration, Nocturne black exterior paint is complimented by a Bugatti light blue sport contrasting colour, in addition the car has Nocturne black Diamond cut wheels with Bugatti light blue sport brake callipers. The interior is a matching Beluga black and Bugatti light blue sport leather interior trim and the more comfortable quilted comfort seats were specified. Colour coded seat belts and Carbon package steering wheel with Bugatti light blue sport stitching were also fitted.

The car benefits from impeccable service history from new with all services solely carried out by official Bugatti service centres, as detailed below:

2018 October – Service at Bugatti Dusseldorf – 1,000 miles

2019 October – Service at Bugatti London – 1,545 miles

2020 September – Service at Bugatti London – 1,717 miles

2021 September – Service at Bugatti London – 2,152 miles

Presented in 'as new' condition throughout and complete with all of its factory accessories including the dedicated metal presentation box, speed key, spare key, USB stick with production images and original specification on, original owners handbooks, car cover and trickle charger.

This car represents a fantastic opportunity to purchase a beautifully spec'd and impeccably maintained Chiron at a huge saving from its cost new price.

With an 8-litre, 16-cylinder quad-turbocharged engine that produces 1,500 hp, 1,600 Nm of torque and a top speed that is electronically limited to an incredible 261 MPH, there's no dispute that a Chiron is 'The *Concorde* of automobiles'!
